Aera Energy: Proud to Call California Home

Aera Energy LLC is proud to be a respected and responsible California oil company accounting for nearly 25 percent of the state's oil production. We are industry leaders known for outstanding safety and environmental performance. Headquartered in Bakersfield, much of Aera's oil production comes from Kern County, one of the largest oil producing counties in the nation. Aera also has active oil field operations in Ventura, Monterey and Fresno counties and is currently in the permitting process to redevelop the East Cat Canyon oilfield in northern Santa Barbara County.

GENERATING ECONOMIC AND COMMUNITY BENEFITS

- Aera's operations generate billions dollars in revenue for the economy
- Our work creates tens of millions of dollars in property and other taxes (excluding sales tax) to fund local schools, police and fire departments
- For every employee and contractor, more jobs are created in the service and manufacturing sectors; our operations support thousands of jobs in the state
- We also foster partnerships with more than 100 community organizations

We take our responsibility to the communities where we operate seriously. We are proud to call California home – and we do our part to make it a special place to live and work.
